Circular S01/26

### **IMPORTANT INFORMATION IN RELATION TO ONLINE MARKING, EXAMINATION PAPER DESIGN AND STATIONERY DESIGN 2026**

#### **To the Management Authorities of Post-primary Schools and other Entities recognised by the SEC to hold examinations**

**The purpose of this circular is to provide information on:**

1. Online Marking in Leaving Certificate Established, Leaving Certificate Applied and Junior Cycle subjects in 2026
2. Information for Candidates
3. Examination Paper Design
4. Examination Stationery Design
5. Appendices
  - Appendix 1a, 1b - List of subjects being marked online this year
  - Appendix 2 - Samples of covers of the Leaving Certificate answerbook, Leaving Certificate Non-Curricular Language answerbook, Leaving Certificate Established and Leaving Certificate Applied returnable question-and-answerbooks, and Junior Cycle returnable question-and-answerbook
  - Appendix 3 – Detail of stationery items which apply to each subject
  - Appendix 4 - Samples of supplementary stationery

School authorities should instruct all Leaving Certificate, Leaving Certificate Applied and Junior Cycle candidates about what to expect in the examinations on foot of the information in this circular including the appendices.

#### **1. Online Marking in Leaving Certificate and Junior Cycle subjects 2026**

The majority of subjects in the Leaving Certificate and Junior Cycle examinations are now marked online. In 2026, the following subjects will also be marked online for the first time: Leaving Certificate Polish and Junior Cycle Classics. Please see the full list of online marked subjects in **Appendix 1a**.

#### **2. Online Marking in Leaving Certificate Applied subjects 2026**

In 2026 a number of Leaving Certificate Applied subjects will also be marked online for the first time. Please see the full list in **Appendix 1b**. Leaving Certificate Applied Section will issue additional information to schools with Leaving Certificate Applied candidates in due course.

#### **3. Information for Candidates**

Candidates sitting any of the examinations in subjects which will be marked online should be made aware of the following:

- Candidates are required to write their **Examination number** and their **Date of Birth** in the spaces provided on the front cover of all answerbooks and all stationery returned at the end of an examination session.  
As part of the SEC resulting process we check each candidate's examination number against their date of birth, as they have entered it. This is a critical part of the process and **it is imperative that candidates complete their details correctly on each script** so that we can reconcile their information in the online marking system.
- Candidates must complete their responses in blue or black pen. **Coloured pens, gel pens, highlighters or erasable pens must not be used.** The scanning process may not capture what the candidate has written on the page if anything other than blue or black pen is used. **Text not captured in the scanning process will not be visible to the examiner for marking.** Pencils and coloured pencils may be used for completing diagrams and graphs.
- On the Leaving Certificate answerbook candidates must indicate the subject, level and language version (Gaeilge or English) for which the answerbook is being used. To do this they must fully shade in the relevant circles on the cover. Candidates completing the Leaving Certificate Non-Curricular Language answerbook must indicate the language they are taking by shading in the relevant circle on the cover. Accuracy when completing this is vital to ensure that the script is routed to the correct examiner for marking – see **Appendix 2** for example.
- On the Leaving Certificate answerbook and on the Leaving Certificate Non-Curricular Language answerbook, candidates are required to begin each question on a new page and to clearly write each question number in the space provided.
- Candidates should not use correction fluid (such as *Tippex*) on examination material. Where a candidate makes an error, they should just cross out the error, and continue with their work. This is the case for all subjects, whether they are marked manually or online, as there is a possibility that the cancelled work may merit the award of marks. It should therefore be crossed out but left visible to the examiner.
- Candidates should complete their responses using the spaces provided on the examination paper or in the answerbook as appropriate to the subject to ensure that all of their responses are captured in the scanning process. Anything outside of these areas or in the margins may not be seen by the examiner.

We have also produced a short video containing some of the information outlined above. This can be found at [Examination Information - State Examination Commission](#) under the heading "Information for Candidates". Please encourage all examination candidates to familiarise themselves with these details prior to the commencement of the examinations.

Posters and convenient journal-sized stickers containing this information have recently been provided to schools. The Candidate Information video can be viewed by scanning the QR codes, shown below, which are also accessible on the posters/stickers:

#### **4. Examination Paper Design**

There is no material change to the content of examination papers as a result of them being marked online.

Broadly speaking, there are three different formats of Leaving Certificate examination papers:

1. Examinations consisting of a returnable question-and-answerbook that incorporates all the questions and the spaces for answering them. Where relevant, graph pages and other specialised stationery will be incorporated into the returnable question-and-answerbook.
2. Examinations consisting of a returnable question-and-answerbook that incorporates the short answer questions and the spaces for answering them, as well as the lined pages for answering the longer response questions. The longer response questions themselves are presented in a separate question paper. Where relevant, graph pages and other specialised stationery will be incorporated into the returnable question-and-answerbook
3. Examinations in which the question paper is separate from the answerbook or other stationery used. In these examinations, candidates answer all questions in the Leaving Certificate answerbook.

Samples of the above examination material can be found on [www.examinations.ie/online-marking](http://www.examinations.ie/online-marking).

See **Appendix 3** for a full list of the Leaving Certificate subjects being marked online that will use a returnable question-and-answerbook, as well as those being marked online that will use the Leaving Certificate answerbook. There is a separate answerbook for the Non-Curricular Language subjects.

Leaving Certificate Applied subjects will also use the question-and-answerbook format.

At Junior Cycle, all subjects have a returnable question-and-answerbook format. Where graph paper and other specialised stationery is required, this is included in each of the relevant Junior Cycle question-and-answerbooks.

#### **5. Examination Stationery Design**

SEC-appointed superintendents will be provided with the following stationery products which will be used for all subjects, whether marked online or on paper.

- i. **A 36-page Leaving Certificate answerbook for use in all Leaving Certificate subjects where a separate answerbook is required.**

In addition to the front cover and some instructions on page 2, the answerbook has 34 lined pages. Candidates must indicate the subject, level and language version on the front cover of the answerbook.

There is a separate 36-page answerbook for the Non-Curricular Language subjects. This also has instructions on page 2 and contains 34 lined pages. Candidates must indicate which language they are sitting by shading in the circle beside the relevant language on the front cover.

Accuracy when completing the details on the front cover is vital to ensure that the script is routed to the correct examiner. Please see **Appendix 2** for completed samples of these front covers.

**ii. Supplementary stationery. There are three Leaving Certificate and two Junior Cycle supplementary stationery products.**

**Leaving Certificate**

1. A 4-page supplementary answerbook consisting of a **White coloured** cover page and three lined pages for Leaving Certificate.
2. A 4-page supplementary Graph Paper answerbook consisting of a **White coloured** cover page and three pages of graph paper for Leaving Certificate.
3. A 4-page Accounting stationery answerbook consisting of a **White coloured** cover page and three pages of accounting paper for Leaving Certificate.

**Junior Cycle**

1. A 4-page supplementary answerbook consisting of a **Green coloured** cover page and three lined pages for Junior Cycle.
2. A 4-page supplementary Graph Paper answerbook consisting of a **Green coloured** cover page and three pages of graph paper for Junior Cycle.

Please see **Appendix 4** for the cover of each of the five supplementary paper products.

**Teachers should not instruct students to request supplementary answerbooks at the start of an examination.** In line with the SEC's longstanding instructions in all examinations, Superintendents will not hand out supplementary answerbooks at the start of the examination and are instructed to provide supplementary answerbooks to candidates only when they have used the space in their main answerbook.

In certain subjects which require the use of the Leaving Certificate answerbook, such as Leaving Certificate Chemistry, Physics, and Engineering, candidates often require the use of graph paper. As the Leaving Certificate answerbook does not contain graph paper, the supplementary graph paper stationery will be made available upon request by the candidate. Similarly, the supplementary Accounting stationery will be made available upon request.

**Samples of all examination material can be found on [www.examinations.ie/online-marking](http://www.examinations.ie/online-marking).**

If you have any queries in relation to any of the information contained in this document, please contact the Online Marking Section via phone on 090 6442476 or via email on [onlinemark@examinations.ie](mailto:onlinemark@examinations.ie).

**Please bring this document to the attention of teachers and particularly to the attention of candidates and parents/guardians. All of the information detailed here, including samples of all stationery products, can also be found on [www.examinations.ie/online-marking](http://www.examinations.ie/online-marking).**
